Champagne Series... For the real *Connaisseur*!

Champagne Series range hoods have a streamlined design that blends with any kitchen décor. These range hoods are designed to be powerful, efficient and easy to clean.

- Models for under-cabinet installation
- Brushed stainless steel or white finish
- 30" width
- Internal blower
- One intensity bright halogen lighting (C270), two intensities (C180) and three intensities (C370)
- C600E and C600M GU10 50-watt shielded bulbs (included)
- 5 min. delay-off feature (C600E and C370)
- Micromesh filters
- Heat Sentry™ detects excessive heat and adjusts speed to high automatically (available on selected models only)
- Horizontal or vertical discharge 3 1/4" x 10" (adapter / damper included)
- Non-ducted installation (available on selected models only)

Note: The minimum hood distance above the cooktop must not be less than 20" for an electric range and 24" for a gas range.

Specifications

Series	Width	Stainless Steel	White	Volts	Amps	CFM (horiz.) (max / min)	Sones (max / min)
C600E*	30"	C600E30SS	C600E30WH	120	3.4	650 / 130	10.5 / 0.9
