# How does heat recovery work?

## AN AIR EXCHANGER WITH HEAT RECOVERY:

- Is ideal for colder climates
- Makes the home more comfortable
- Reduces energy consumption
- Eliminates unpleasant drafts

# Choose HEPA filtration

**HEPA FILTERS (HIGH EFFICIENCY PARTICULATE AIR) CAPTURE 99.97% OF ALLERGENS AND MICROSCOPIC PARTICLES. THEY CAN CONTRIBUTE TO REDUCING THE SYMPTOMS OF ALLERGIES, ASTHMA, COLDS AND PERSISTENT COUGHING.**

91524 13/05

# Choose your installation option

## DO IT YOURSELF

Installation can be done with easy-to-use kits that contain all the components you need to install a Venmar unit. Each comes with an easy-to-follow installation guide in the box and also online.

## PROFESSIONAL INSTALLATION

A recommended installer will go to your home for an estimate. The cost of the estimate will be deducted from the cost of installation. To find a Venmar-recommended professional installation service in your area, consult the **RIS flyer** (available in this display) or call **1-800-567-3855**.

# CLEAN AIR LIVING<sup>MC</sup> BUYING GUIDE

# Why do today's homes need ventilation?

TODAY'S HIGHLY INSULATED AND WELL-SEALED HOMES TRAP IN HUMIDITY, STALE AIR AND POLLUTANTS. AN AIR EXCHANGER IS AN EFFECTIVE AND ENERGY-EFFICIENT WAY TO CONTINUOUSLY REFRESH THE AIR IN YOUR HOME.

Evacuates stale air and pollutants

Introduces healthful fresh air from outside

Controls excess humidity

Helps prevent mould and mildew

Minimises odours and cooking residue

# Choose your air exchanger
