

Small. High-Powered. Economical.

Venmar AVS introduces the new K Series.

The Kubix products are gaining popularity since their arrival on the market. We are now expanding the range by offering products providing 80 and 100 CFM.

The Ideal Air Exchanger for Small Spaces

The K Series is the ideal choice for condominiums, apartments and other limited space applications that require up to 100 CFM of continuous ventilation. With their compact size and 4-inch ports, they can be installed in small spaces such as a closet or mechanical room above a hot water tank.

- Now offering 80 and 100 CFM airflows to cover ventilation needs of larger homes
- Advanced blower design for quiet operation
- Fast and easy installation with top or side ports options
- Meet ENERGY STAR® requirements in Canada only
- Easy to balance with integrated dampers and pressure taps
- Now with a 5-year warranty

ENERGY STAR® and NOVOCLIMAT 2.0* compliant!

In addition to being ENERGY STAR®* qualified, the K8 and K10 units are specifically designed to fulfill all your residential ventilation needs and to meet the characteristics of an air exchanger in the efficient home programs.
