**DISCOVER THE NEW GENERATION OF VENMAR AIR EXCHANGERS: ULTRA-EFFICIENT AND ENVIRONMENTALLY-FRIENDLY**

The E15 ECM HRV has been designed to be one of the most eco-friendly HRV air exchangers on the market. Its innovative design incorporates extremely high performance ECM\* motors, which enable the E15 ECM HRV to significantly lower energy costs without affecting its performance. Additional energy efficiency is achieved through its advanced heat recovery core, which can retain up to 80% of the home's heating. The E15 ECM HRV surpasses energy-saving standards while providing effective heat recovery, ventilation and quiet operation. All aspects have been designed to facilitate balancing of air flow and simplify uses and installation.

- High performance ECM\* motors
- Faster and easier installation of insulated flexible ducts with practical straps
- Integrated balancing dampers
- Integrated electronic board on motors
- Homeshield™ defrosting system
- Heat recovery core with superior capacity
- Optimized drainage system
- ENERGY STAR® qualified
- Electronically Commutated Motor.

**REPAIRS AND MAINTENANCE**

The E15 ECM HRV high output ECM motors are permanently lubricated. The electronic circuit board eliminates electromechanical parts, reducing repair time to a minimum.

**WARRANTY**

The E15 ECM HRV unit is protected by a complete 5-year warranty on all parts. The heat recovery core is covered by a limited lifetime warranty, with the original proof of purchase.

**Controls**

- This unit is very simple to operate. Once the unit is installed, press on its push button, located under the unit, to activate it. Press once for low speed, once again for high speed, and once more to stop it.
- For more convenience, this unit can also be controlled by an optional main control. For a complete list of optional main and auxiliary controls available, refer to the **Wall Control Compatibility Chart** on last pages of wall controls specification sheet, available at [www.venmar.ca](http://www.venmar.ca).
- For more details about controls, refer to the **Main and auxiliary wall controls** user guide, also available at [www.venmar.ca](http://www.venmar.ca).

**Options**

- Complete line of registers and diffusers
- Electric duct heater

**Homeshield™ Defrosting System**

The E15 ECM HRV uses a unique defrosting method. No negative pressure is created by air exhausted to the outside, as the air is recirculated into the house, helping to prevent any backdraft.
