THE PROFESSIONALS' CHOICE

### Easy to Reach Filters

Washable foam filters effectively filter airborne particles, such as pet dander, lint, dust and mold spores, while protecting the equipment from dust build-up.

### Heat Recovery Core (HRV)

Offers superior efficiency by warming the incoming fresh, colder air in winter before it is distributed throughout your home.

OR

### Energy Recovery Core (ERV)

Recovers heat and recuperates the energy trapped in moisture, which greatly improves the overall recovery efficiency.
